Recycling Facts

Enough
plastic
bottles are
thrown away
in the US
each year to
circle the
Earth four
times.

Orange peels can be turned into biodegradable plastic!

Every
5 seconds,
60,000
plastic bags
are used in
the US.

Number 5
plastics repel
water,
making them
ideal for yogurt
containers and
toothbrushes

Paper can be recycled up to 7 times before it loses its strength.

Books cannot be recycled because of the chemicals and glue used in

the binding.
Consider
donating or
selling your old
books instead!

Recycling one aluminum can saves enough energy to listen to a full album on your iPod. Recycling 100 cans could light your bedroom for two whole weeks.
